PROJECTS

Professional portfolio | <https://github.com/GaliciaRogelio/Rogelios-Portfolio> |

<https://galiciarogelio.github.io/Rogelios-Portfolio>

- Professional portfolio created with React and Tailwind.css. This project is used to demonstrate and showcase personal projects.
- Core responsibilities to this project are mainly to showcase previous projects and display them in a nice and neat way.
- Tools / languages used: HTML/XML | Node.js | React.Js | GitHub | Tailwind.CSS

Shop-shop | <https://github.com/GaliciaRogelio/shop-shop> | <https://my-shop-shop.herokuapp.com/>

- E-Commerce app created to sell items on the internet with the ability to login, signup, ability to add items to the cart and to pay with a card using a third-party API.
- Core responsibilities to this project are to create a responsive web E-commerce where users are able to buy items posted by the seller in a timely manner and easy to use.
- Tools / languages used: HTML/XML | CSS | Node.js | React.Js | GitHub | Heroku | MongoDB | GraphQL | Express.js

Employee Tracker | <https://github.com/GaliciaRogelio/employee-tracker-sql> |

<https://drive.google.com/file/d/1kpmyDIDoVRTnrDMphOhInnrExOeo0ep/view>

- Employee tracker is a back-end app used to track employees, track their roles and salaries. Using MySQL to create tables and a database to store the employee's information.
- Core responsibilities to this project are to keep track of employee's roles and salaries in an organized manner with the help of MySQL as a database to store employee's information.
- Tools / languages used: MySQL | Node.js | GitHub | Sequelize | Inquirer

What's for Dinner | <https://github.com/GaliciaRogelio/whats-for-dinner> |
<https://nicopetelo.github.io/whats-for-dinner/>

- An application that will allow the user to get ideas for meals by searching for recipes either by category or keyword.
- Group project where I contributed with the styling of the website while the rest of the team focused on rendering the food items through multiple third-party API's.
- Tools / languages used: HTML | CSS | JQuery | GitHub | UIKit | Third party API's (Edamam, MealDB)

EXPERIENCE

Bartender

2018 – 2020

Colibrí Mexican Bistro

San Francisco CA

Provided guest with a positively memorable experience by advising diners on food menu items and drinks. Deftly created a myriad of known mixed drinks as well as custom requests. Worked well with other bar and restaurant staff.

Bartender

2017 – 2019

Tres SF

San Francisco CA

Carried on friendly conversations with patrons and answered any questions or concerns to the best of my ability. Worked in a collaborative manner with other restaurant employees to ensure outstanding customer experience. Created own signature cocktails to add on to the menu.

EDUCATION

Bootcamp Certificate: UC Berkeley, Berkeley, CA

A 24-week intensive program focused on gaining technical programming skills in HTML5, CSS3, Javascript, JQuery, Bootstrap, Node Js, MySQL, MongoDB, Express, Handelbars.js & ReactJS.

Computer Science (in progress): Contra Costa College, San Pablo, CA (Transferring to Chicago IIT)
